**Conclusion:**

After deep research of several horoscopes of medical students, it is clearly understood that the Karaka for acquiring medical education by the natives are Sun, Saturn, Jupiter and Mars. The planetary combinations of

the above planets in appropriate houses and their aspects on them are responsible for medical education. Further, it is understood that though the position of planets are in good status, the Dasa period of the planets in the natives' birth chart is the key factor to yield fruitful results to the natives at any case.
