Abstract:

The combination of Planets Sun and Venus plays a vital role in the formation of one's Marriage, Marriage Life and Happiness resulting therein. Venus gets Asthanga Dosham or combustion by getting near the Sun (when the difference is less than 9 degrees between them. Similarly when the distance is more than 35 degrees also (35 to 48 degrees the maximum it could be) Marriage happens only after long delay when compared to the normal age of one getting married.

Key Words: Sun, Venus, Combustion, Exalted, Debilitated, Distance Between Planets

How Venus Becomes Stronger?

Venus is at an exalted position (Exalted at Pisces Rasi)
 Venus is Ruling Planet at Taurus or Libra Rasis,
 Venus is with friendly planets, Saturn or Mercury,
 Venus is having its base star (Saram) owned by Saturn, Mercury
 Or base Star owned by the Ascendent subha Grahas,
 (at Ascendent, 5th House or the 9th House ... Trine (Triangle)

Similarly, Venus gets weaker in the following circumstances:

When Venus is debilitated (Debilitated) at the Virgo Rasi
 When Venus is placed along with Rahu or Kethu,
 Venus is at hidden Rasis like 6th, 8th or 12th House from the Ascendent,
 Rasi Lord of the House where Venus stays happens to be at the 6th, 8th or 12th House the Ascendent
 Venus is debilitated at the Navamsa chart (at the Virgo Rasi).
 Venus I sitting with Mandhi (close to each other) in a Rasi.

However, we are going to see the combination of the Planets Sun and Venus Sitting in a House the following results are happening.

Rule No 1:

Where the Venus is placed near the Planet Venus and separated by less than 10 degrees (0 to 10 degrees to be precise), then Venus is suppose to be getting the Mars Dosham or loss of power. And the result could be a very long delay in the formation of one's Marriage.

Rule No 2:

When Sun and Venus are placed with distances of more than 35 to 47 Degrees (this happens when Sun and Venus are placed at the second or third House from the house where one is staying), here Venus gets colder due to the wide distance and the result is again long delayed Marriage.

Rule No 3:

When Sun and Venus are at the third House from where one is staying, this also Results in a long delay in one's Marriage. (Example Sun at Aries & Venus at Gemini where Venus is at the third House from the Sun.

There are many reasons for a Marriage getting delayed in one's Horoscope the 3 Rules we have discussed above are also very important.

The combination of Sun with Venus either at close quarters (0 to 10 degrees) or at long distance from each other (from 35 to 47 degrees) then we get the same (one's Marriage getting unduly delayed).

This combination is more harmful when it is occurring at the Ascendent (0 to 10 degrees) or at long distance from each other (from 35 to 47 degrees) then we get the same (one's Marriage getting unduly delayed).

This combination is more harmful when it is occurring at the Ascendent (1st House) 2nd, 4th, 7th, 8th or 12th House from the Ascendent, because, these Houses are having influence in the formation of the Native's Marriage Life.

We are going to discuss some Real Life Horoscopes where the Marriage of the Native is delayed unduly.

MOON	MANDHI	ASCENDENT
	Example 1 Date of Birth 15 th September 1981 Born at Chennai Time of Birth : 01.20 am	MARS RAHU
KETHU		SUN (28 ⁰ 26')

		VENUS (8° 44')	MERCURY SATURN JUPITER
--	--	----------------	------------------------------

Here we can see Sun and Venus are separated by about 40 degrees

Sun is at the Leo Rasi, 3rd from the Ascendent and situated at 148 degrees and 26 minutes. Venus is at the Libra Rasi, 5th House from the Ascendent and situated at the 88 degrees and 454 minutes. So, the difference between the two is (188.44 minus 148.26) is equal to 40 degrees and 18 minutes. (approx.. 40 degrees)

When we look into above mentioned rule No.2, which states, if Sun and Venus are placed with distances of more than 35 to 47 degrees, it results in a very long delayed marriage to the Native.

Thus, the Marriage of the Native is delayed and remains unmarried as on date we can see the rule applies to the result directly.

Rule No 3:

Rule 3 is also applicable here, as per which, where Sun and Venus are at the 3rd House from where one is staying, results in delayed marriage. Sun at LEO Rasi and VENUS at the Libra Rasi, Libra is the third house from Leo, this rule is also applicable here, and the result is a delayed Marriage or no marriage so far.

We next see another example. This is a Lady's horoscope, whose date of birth is 11th January 1986, and she was born at Calcutta by 04.50.0 am, Uthiradam Star, Capricorn Rasi and Sagittarius Ascendent.

Here also, Sun is at the Sagittarius Rasi, Uthiradam Star, Deerghamsam at 266 degrees and 55 minutes and, the Venus is at the same Sagittarius Rasi, Pooradam Star, with Deerghamsam at 263 degrees and 5 minutes. The difference is about 3 degrees and 50 minutes. If we Check the above mentioned Rule No.1, if the Venus is getting close to the Sun (by less than 9 degrees), Venus gets Asthanga Dosham and the Native's Marriage is Unduly Delayed.

	RAHU		
	Date of Birth : 11/01/1986 04.50.00 am at Calcutta		
MOON JUPITER			
ASCENDENT SUN MERCURY VENUS	SATURN	MARS MANDHI KETHU	

Thus, the Rule No.1 is fully applicable in this Horoscope.

Here is Another Example Horoscope:

This Native is a male, who was born at CHENNAI on 2nd May 1981 by 04.20.00 Morning. His Star is Uthirattathi, Pisces Rasi and Pisces Ascendent Sun is at the Aries Rasi Bharani Star and Venus is also at the Aries Rasi, Bharani Star. Venus is at 18 degrees and 0 minutes and Venus is at 24 degrees and 23 minutes. The difference is thus, 6 degrees and 23 minutes, thereby, Venus attains ASTHANGA Dosham and Rule No.1 as above stated is applicable here, and, affected the Formation of Marriage for the Native.

ASCENDENT MOON	SUN MERCURY MARS VENUS		
	Date of Birth : 8 th January 1986 Born at Arakkonam Time of Birth ; 10.45 am		RAHU
KETHU MANDHI			
			JUPITER SATURN

The combination of Sun and Venus at the Aries Rasi very close to each other by just 6 degrees, results in the Marriage of the Native, he is yet to be getting married at the age of 44

Next we can see a lady's Horoscope. She was born at Arakkonam, on 8th January 1986, by 10.45 am. She has Kettai as Star, with Scorpio Rasi and Pisces Ascendent

Sun, in this Horoscope is at the Sagittarius Rasi at 264 degree and 6 minutes with Venus at the same Rasi at 261 degree and 22 minutes.

When we calculate the difference between the two planets, it is just about 4 degrees

Here, the Rule No.1 comes to play, and thus Venus closer to the Sun within 4 degrees is at the Asthanga Dosham. When we take the Rule No.1 of our discussion, the Rule Applies here and the Native remains unmarried even at the age of 39. In this Horoscope, Mars with Sun at the second House gives a Dosham and Saturn with Jupiter at the 7th House gives Brahma Hathi

Dosham. Ascendent Moon aspects Jupiter at with Saturn at the 7th House, forming Punarpoo Dosham. These also causes the marriage to get delayed.

We also see another example Horoscope in similar lines

SUN MERCURY			RAGU
VENUS	Date of Birth : 6 th April 1982 Time of Birth : 06.40 p.m. Born at Chennai		
KETHU		JUPITER MANDHI	ASCENDENT MOON MARS SATURN

This Native is Male, and about 43 years and unmarried as on date.

We can see the Sun at the Pisces Meena Rasi, Revathi Star and the Dheergamsam is 352 degrees and 56 minutes. The Venus is at the Aquarius Rasi, Avittam Star, with the Deerghamsam as 306 degrees and 34 minutes. The distance thus becomes 46 degrees and 22 minutes, where it acts according to the 2nd Rule of our Research which states, when the distance between Sun is between 35 to 47 Degrees and results in a long delayed marriage Added to this, Moon with Saturn is at the Virgo Ascendent gives Punarpoo Dosham, and also, Sun the 12th Lord is at the 7th House aspecting Saturn which also forms a Dosham. These also affects the Marriage prospect. The Native remains unmarried even at this date.

Conclusion:

Analysing the example Horoscopes, we could find that the Marriage does not occur at the right age for the Natives, and the combination of SUN and the Venus is Also Seen as the Main Cause for the Delay in Marriages.

When Sun is very close with the Venus by less than 9 degrees, there is combustion of Asthanga Dosham for the Venus and Venus attains weakness. As Kalathra Karagan of the Graha responsible for one's Marital life, the destiny of getting a good marriage life is delayed unduly for the Natives.

Similarly when the distance between the Sun and the Venus is between 35 and 47 Degrees, Venus is very much away to the sun and thereby getting cold nature or some Weakness. Here also Venus is ineffective in giving a timely marriage life.

In both these cases some problem with the reproductive system, or, Hormone imbalance are the common occurrences to the Natives, both affecting in one way or another, the early marriage chances of the Natives. This is also applicable when the Sun and the Venus situates at the 3rd House from each other. Here Sun loses touch or communication problem with the Venus and lack of proper communication tools causes long Marriage delays. (Delay in information reaching in time, for either or both parties seeking marital alliance).
